

## **Valencia County RAC Narrative ( April 2012)**

### **Barriers this Quarter**

- 1. Continue to have problems with current contact information for students when brought to RAC office. When referrals are made without the student being present. RAC Specialist is having difficulty contacting parents when contact information is not available or current.**
- 2. Need to create a system that works for Belen on how to see students/ families when referred to RAC.**
- 3. Transportation for families to get to appointments, gas is also an issue.**
- 4. Need to create contacts for Isleta and Laguna pueblo for Native students.**
- 5. Low numbers for Belen this month.**

### **Successes**

- 1. Families are continuing to follow-up with referrals to agencies in Valencia County.**
- 2. Belen parents are requesting support and information on the RAC program.**
- 3. RAC Specialist continues to be flexible with SRO's request regarding availability.**
- 4. Continue to do follow-up with families who are utilizing the referrals.**
